This Roomtable is a list of classroom space maintained by the University Class Schedule office (UCSO) in ARRO. It was developed because we needed a handy reference to all the classrooms. It is based on the room lists used by Schedule 25/25E to book rooms for courses. Therefore, the list of rooms on Banner Class Schedule should match the Roomtable! It SHOULD contain all rooms used for academic purposes at McGill. If you know of any room that is used for courses that is NOT on the room list, or if you find a discepancy between the Roomtable and the roomlist on Class Schedule, please contact the UCSO.

Adding a room to the Roomtable (and therefore, to Class Schedule) does not mean the room can be used by the whole campus! Departmental rooms are always blacked out for the exclusive use of their departments - permission to use them must always be obtained from the Roombooking Contact.

Please contact the UCSO by email if you have any additions/deletions/corrections to make to the Roomtable. Now that this document is on the Web, we will be able to update more frequently.

KEY – To save space, explanations of the column contents are in paragraph format with column headers in bold. Many new columns contain info from IMS about the A/V equipment. To see the complete room features/attributes, go to SLARDEF in Banner client.
BLDG: building code. **ROOM**: room number. **Cap.**: room capacity. **1 VDP**: * indicates room has one Video Data Projector. **2 VDP's**: * indicates room has two Video Data Projectors. **DVD/VCR**: * indicates room has DVD/VCR. **1 Slide Proj.**: * indicates room has one slide projector. **2 Slide Proj.**: * indicates room has two slide projectors.
Web CT Rcrdg: * indicates room has Web CT recording capability (lectures available on the Web) - all lecturers assigned to the room will be contacted by IMS to determine of lectures s/b recorded. **Microphone**: * indicates room has a microphone. **KEY**: indicates who has the key to the equipment. **Remote Sensor**: for rooms where the equipment is far from the podium (aud ceilings), you point the remote at the sensor instead. **Resolution**: VDP resolution. **Cabinet/Podium**: C indicates A/V equipment is housed in a Cabinet, P indicates it's in a Podium. **Doc Cam**: * indicates the room has a document camera. **AMX Sys**: this is an automated system for controlling the VDP that replaces the remote control. **A/V Jurisdiction**: indicates who is responsible for the equipment. **Contact for Roombooking**: LEC - lecture room aka general purpose classroom (auditorium=sloped, standard=one level) , SEM - seminar (usually a large table surrounded by chairs), LAB - laboratory (language, computer, physics, etc.) containing special equipment, STU - studio (art, drama, architecture). Name, phone number and department of the person to contact for permission to use the room; for academic roombookings, the Faculty Schedule Coordinator makes the request. **EXAM Suitable** - * indicates a room suitable for exams, writing space is non-sidearm, ** indicates a sloped room - not suitable for all exams. **CE Books >6**: * indicates Continuing Education controls the room after 6:00 pm, contact Dianna.wilson@mcgill.ca to book the room.

KEY – To save space, explanations of the column contents are in paragraph format with column headers in bold. Many new columns contain info from IMS about the A/V equipment. To see the complete room features/attributes, go to SLARDEF in Banner client.
BLDG: building code. ROOM: room number. Cap.: room capacity. 1 VDP: * indicates room has one Video Data Projector. 2 VDP's: * indicates room has two Video Data Projectors. DVD/VCR: * indicates room has DVD/VCR. 1 Slide Proj.: * indicates room has one slide projector. 2 Slide Proj.: * indicates room has two slide projectors.
Web CT Rcrdg: * indicates room has Web CT recording capability (lectures available on the Web) - all lecturers assigned to the room will be contacted by IMS to determine of lectures s/b recorded. Microphone: * indicates room has a microphone. KEY: indicates who has the key to the equipment. Remote Sensor: for rooms where the equipment is far from the podium (aud ceilings), you point the remote at the sensor instead. Resolution: VDP resolution. Cabinet/Podium: C indicates A/V equipment is housed in a Cabinet, P indicates it's in a Podium. Doc Cam: * indicates the room has a document camera. AMX Sys: this is an automated system for controlling the VDP that replaces the remote control. A/V Jurisdiction: indicates who is responsible for the equipment. Contact for Roombooking: LEC - lecture room aka general purpose classroom (auditorium=sloped, standard=one level), SEM - seminar (usually a large table surrounded by chairs), LAB - laboratory (language, computer, physics, etc.) containing special equipment, STU - studio (art, drama, architecture). Name, phone number and department of the person to contact for permission to use the room; for academic roombookings, the Faculty Schedule Coordinator makes the request. EXAM Suitable - * indicates a room suitable for exams, writing space is non-sidearm, ** indicates a sloped room - not suitable for all exams. CE Books >6: * indicates Continuing Education controls the room after 6:00 pm, contact Dianna.wilson@mcgill.ca to book the room.

KEY – To save space, explanations of the column contents are in paragraph format with column headers in bold. Many new columns contain info from IMS about the A/V equipment. To see the complete room features/attributes, go to SLARDEF in Banner client.
BLDG: building code. ROOM: room number. Cap.: room capacity. 1 VDP: * indicates room has one Video Data Projector. 2 VDP's: * indicates room has two Video Data Projectors. DVD/VCR: * indicates room has DVD/VCR. 1 Slide Proj.: * indicates room has one slide projector. 2 Slide Proj.: * indicates room has two slide projectors.
Web CT Rcrdg: * indicates room has Web CT recording capability (lectures available on the Web) - all lecturers assigned to the room will be contacted by IMS to determine of lectures s/b recorded. Microphone: * indicates room has a microphone. KEY: indicates who has the key to the equipment. Remote Sensor: for rooms where the equipment is far from the podium (aud ceilings), you point the remote at the sensor instead. Resolution: VDP resolution. Cabinet/Podium: C indicates A/V equipment is housed in a Cabinet, P indicates it's in a Podium. Doc Cam: * indicates the room has a document camera. AMX Sys: this is an automated system for controlling the VDP that replaces the remote control. A/V Jurisdiction: indicates who is responsible for the equipment. Contact for Roombooking: LEC - lecture room aka general purpose classroom (auditorium=sloped, standard=one level), SEM - seminar (usually a large table surrounded by chairs), LAB - laboratory (language, computer, physics, etc.) containing special equipment, STU - studio (art, drama, architecture). Name, phone number and department of the person to contact for permission to use the room; for academic roombookings, the Faculty Schedule Coordinator makes the request. EXAM Suitable -* indicates a room suitable for exams, writing space is non-sidearm, ** indicates a sloped room - not suitable for all exams. CE Books >6: * indicates Continuing Education controls the room after 6:00 pm, contact Dianna.wilson@mcgill.ca to book the room.

KEY – To save space, explanations of the column contents are in paragraph format with column headers in bold. Many new columns contain info from IMS about the A/V equipment. To see the complete room features/attributes, go to SLARDEF in Banner client.
BLDG: building code. ROOM: room number. Cap.: room capacity. 1 VDP: * indicates room has one Video Data Projector. 2 VDP's: * indicates room has two Video Data Projectors. DVD/VCR: * indicates room has DVD/VCR. 1 Slide Proj.: * indicates room has one slide projector. 2 Slide Proj.: * indicates room has two slide projectors.
Web CT Rcrdg: * indicates room has Web CT recording capability (lectures available on the Web) - all lecturers assigned to the room will be contacted by IMS to determine of lectures s/b recorded. Microphone: * indicates room has a microphone. KEY: indicates who has the key to the equipment. Remote Sensor: for rooms where the equipment is far from the podium (aud ceilings), you point the remote at the sensor instead. Resolution: VDP resolution. Cabinet/Podium: C indicates A/V equipment is housed in a Cabinet, P indicates it's in a Podium. Doc Cam: * indicates the room has a document camera. AMX Sys: this is an automated system for controlling the VDP that replaces the remote control. A/V Jurisdiction: indicates who is responsible for the equipment. Contact for Roombooking: LEC - lecture room aka general purpose classroom (auditorium=sloped, standard=one level) , SEM - seminar (usually a large table surrounded by chairs), LAB - laboratory (language, computer, physics, etc.) containing special equipment, STU - studio (art, drama, architecture). Name, phone number and department of the person to contact for permission to use the room; for academic roombookings, the Faculty Schedule Coordinator makes the request. EXAM Suitable - * indicates a room suitable for exams, writing space is non-sidearm, ** indicates a sloped room - not suitable for all exams. CE Books >6: * indicates Continuing Education controls the room after 6:00 pm, contact Dianna.wilson@mcgill.ca to book the room.
