How to create convocation ceremony attendance records

SHACATT Overview

The SHACATT form stores convocation ceremony information on graduation attendance.

The key information (which for the purposes of McGill's Convocation Office ignores all cap, gown, hood and other associated information) is a simple attendance value that is uploaded from CISS. It is this single value that allows ceremony information to be added to SHADIPL.

When CISS uploads are incomplete for whatever various reasons, the attendance value can be manually updated through a simple procedure, as detailed in this how-to.

How to create convocation ceremony attendance records

How to create convocation ceremony attendance records

- 1 Enter SHACATT in the **Go** field.

The screenshot shows the 'Ceremony Attendance SHACATT 5.0' application window. At the top, there are fields for 'ID' (with a magnifying glass icon), 'Ceremony' (highlighted in light grey), 'Term' (with a magnifying glass icon), and 'Holds' (checkbox). Below this is a section titled 'Attendee Information' with fields for Height, Weight, Head Size, Measurement, and Activity Date. Further down are sections for Cap, Gown, and Hood, each with Type, Size, Order Date, Pickup Date, and Return Date fields. The 'Ceremony' field is the active input field.

- 4 Click the **Next Block** button.
 - 5 Ignore the Attendee Information block and simply select Addl Ceremony Information in Options.
- Note** You can access the Addl Ceremony Information block from the Options Panel or from the Options Menu however, in either case, your cursor must be in the Diploma Information block.
- 6 Enter "0" in **Announcements**.
 - 7 Click the **Save** button.

Field descriptions for SHACATT

Field descriptions for SHACATT

Item	Description
Key block	
1 ID (Required)	A 9-digit number McGill identification number of a student.
2 Ceremony (Required)	10-digit code indicating a convocation ceremony. Stored in the STVCERT table. The first 6 digits indicate the term. The last 4 digits are unique number sequences. For example, a ceremony code of 2004013001 : <ul style="list-style-type: none">• indicates a May/June convocation ("200401"), and• ends with a sequence of 4 digits, unique within any one term ("3001")
3 Term (Required)	6-digit code indicating the term when the convocation ceremony was held.
4 Holds box	Read-only. Indicates any holds that prevent a student from graduating.
Addl Ceremony Information block	
1 Fee Ind	Fee-related - not used by Convocation Office
2 Fee	Fee-related - not used by Convocation Office
3 Amount	Fee-related - not used by Convocation Office
4 Date	Fee-related - not used by Convocation Office
5 Fee Charged	Fee-related - not used by Convocation Office
6 Announcements (Required)	Used by the Convocation Office in order to save a SHACATT record. For McGill's purposes, this field is an arbitrary value-holder driving the record-creation process.
a Tickets	Not used at this time.
8 Ordered	Not used at this time - refers to ceremony tickets not diploma reprints.
9 Pickup	Not used at this time - refers to ceremony tickets not diploma reprints.
10 Mailed	Not used at this time - refers to ceremony tickets not diploma reprints.
